

# World Patient Safety Day at IIHMR

On the occasion of World Patient Safety Day, the IIHMR University faculty including Colonel (Dr.) Ashok Kaushik, dean

academics, student affairs and two other expert faculty members shared insights on healthcare acquired infections and the management of medication errors which are vital aspects of patients safety.

Dr. Saurabh Kumar, assistant

prof., IIHMR University said that management of medication errors is one of the critical aspects involved in the patient's safety and is one of the most important indicators for medical and the paramedical professionals operating in the health setup.
